

PLACEHOLDER CV - REPLACE ME

This file exists so your new portfolio builds and previews on day one.

Replace it with your real CV:

```
cp ~/Downloads/Your_CV.pdf assets/my-cv.pdf
```

Then keep site.cv in profile.json pointing at the filename you use.

The CV is a required input - the build fails without one.

Your Name - Product Manager

you@example.com | linkedin.com/in/your-profile
